

A VIRTUAL WALKING TOUR FROM WINDSOR CASTLE, BRITAIN'S MOST FAMOUS CASTLE, TO ETON COLLEGE, THE WORLD'S MOST FAMOUS SCHOOL

On this virtual walking tour, we will see Windsor Castle, the oldest continuously inhabited castle in

the world. It has been home to 38 monarchs and is said to be the Queen's favourite residence.

We'll explore Windsor's medieval streets with their timber-framed houses and the 17th century Guildhall where Charles, the Prince of Wales, married Camilla, the Duchess of Cornwall. We'll also see the Long Walk, a three-mile avenue that connects the Castle to Windsor Great Park, a former royal hunting ground. We'll descend Thames Street, passing a statue of a favourite grandson of Queen Victoria and a monument to King George V, the first monarch of the House of Windsor.

We'll cross the River Thames with its boat houses and royally-owned swans over Windsor Bridge which connects Windsor to Eton, a Saxon settlement dating back to the 8th century. We'll proceed along Eton's picturesque High Street to Eton College, the world's most famous school, and hear of its foundation in 1440 by the saintly King Henry VI. We'll also hear about its longest-serving and most notorious headmaster, Dr. Keate, who had a great reputation for flogging the boys.

20 British Prime Ministers have been educated at Eton College including the present one, Boris Johnson, writers such as Shelley and Ian Fleming who wrote the James Bond novels, actors such as Eddie Redmayne and Damian Lewis and Princes William and Harry.
